

So I'm gonna start this off with saying that I don't consider myself the worst victim in this situation. There are more people who have been around Vii (or Skylar) for longer and who have been left with more scars than me. However, I think it's important to get my story out there to highlight just how dangerous Skylar is.

### **Part I: Grooming**

Skylar and mine's friendship was immediately unbalanced in terms of power. I was a young fan of his and I looked up to him greatly. After I initially reached out to him, our friendship grew extremely quick. After a while, I even started to come consider him a father figure and called him dad on multiple occasions. However, the relationship also became more and more sexual over time despite us having a 6 year age gap. At the start, this included him making sexual jokes and sexual references, some of which involved me. I shoved these off as just jokes and thought of it as "this is just how Skylar is." It wasn't a big deal to me at the time, but it made me more susceptible to being sexual with Sky.

The first really sexual thing we did was do an ERP. We had actually done it twice. And this is where I need to preface this by saying that I was the one who initiated some of the sexual encounters, but Sky (who had all the power in the relationship) never said no to any of it. This eventually evolved into doing more sexual things such as sharing dick pics and jerking off in a discord call together.

I also am taking screenshots from DMs with his old account which has since been deleted.

Here's proof that these are in fact with Skylar  
Images only he and Jonie would have access to at the time

Jonah, maybe try figuring out if... well... you're bisexual in general?  
like... I think it's not just because of the style  
I think it's because you might just have feelings for guys that you don't know about entirely or maybe it's a phase  
but otherwise, it doesn't hurt to find out  
I tried having sex with a chick, I got up to that point but I legit couldn't get aroused by her  
she tried everything too  
and she couldn't do it  
and she was a pretty hot chick too  
yeah, I'm gay but it doesn't mean I don't know who's sexy and who isn't  
but maybe just try to explore who you are a bit more?  
this is the time where you start fully developing, and where it's fine to find out when you're supposed to be finding out who you are as a person too  
I did it at too early of an age, and you shouldn't be doing it when it's too late and you're unsure  
if gay stuff arouses you... Furry or not... maybe there's something that you just don't know about yourself yet?  
Or hell it might even just be a me thing where you find me to be attractive rather than just the Furry thing  
In any which case, I'll support you, and I'll try and help you through it, and walk you through things

**Deleted User** 07/06/2020

Okay this will likely be the only time I message today. But please if you are talking to Jonie about this, if you want to share this information with her. I trust her enough to not share it about. But I just want her to know I am so fucking sorry about everything. The grooming, the transophobia. My reaction.

I may not want to talk today with her let alone many people or anyone. But just, please let her know I am so fucking sorry, and if there is any way I can fix this or make it better for her, please let me know. I might be hunting someone down later today that I haven't spoken to in a really long time.

If she does want to talk. She will get nothing but apologies. For everything. She has my word. If she doesn't, that's okay. I just want to say I'm sorry. For everything. Nobody should have had to go through that. Especially her, and honestly although I doubt she will forgive me, I hope she understands that with every time I hurt her throughout life, I am sorry.

She really did mean a lot to me in my life, and honestly I wish I treated her the way she deserved. Again I don't want to talk today if she wants to talk. But honestly I am fine to admitting things but I hope she knows I didn't mean to do anything bad back then. I didn't have bad intentions. I was just going off of what a friend did for me back then.

I don't agree with what I did. I don't like what I did.

Now this is where I have to give the BIGGEST trigger warning as these are screen shots of his and mine erotic roleplay which involves a minor (myself).

I'm just gonna say, I wouldn't want to be sexual with others as often as I do if Riley actually once in awhile actually fuckin' put my dick in his mouth although in general I'm a very loyal person just don't be surprised if someone gets annoyed if they ain't getting anything and won't even bother offering if all they get is whiney excuses lol but yeah, if Riley wanted to be more sexual with me he just should've spoken up or you know... actually be a top lol

**It's all ways pouring O** 02/13/2020

I have a serious question  
Is the reason you jerked off with me in call because you were able to act dominant and we were kinda being open with what we all wanted to do in the call? (edited)

**Deleted User** 02/13/2020

Pretty much yeah.  
I haven't done anything sexual with other guys since that or before that really aside from one time and like yeah that was a fuck up on my end

Ah okav

Message @Deleted User 4f9ceec2

It's also important to note that this happened over a long period of time. Skylar presented himself as a friend and a father figure while I was in a very rough time in my life, and because of that, I couldn't see all the warning signs. The grooming was so effective that even now when I am reminded of him when I look in my Telegram contacts, there's a small part of me that feels like I should try to reconnect with him and have him in my life again.

## **Part II: General Toxicity**

Apart from being a predator, Skylar was always a toxic friend. And I don't mean he had one bad character flaw. No, he made it so you were afraid to even disagree with him. When you ticked him off by doing something as simple as making a joke about Sonic, he would go on tirades the size of collage papers about how he was clearly in the right and how the way you think is dumb. And he always treated his opinion as fact.

This is him bad mouthing Birds of Prey even though I was just exorcised to see the movie/enjoyed it. Bringing up only the negative things his friends said to confirm his previously conceived notions about it.

**It's all ways pouring O** 03/01/2020

Not necessarily over the old one

But I think it's fine to appreciate both since both are good pretrials

And the fight scenes in the movie are really great  
Like they make really good use the environments

**Deleted User** 03/01/2020

Someone told me that the fight scenes were beyond unrealistic

**It's all ways pouring O** 03/01/2020

I mean

Yeah

**Deleted User** 03/01/2020

Considering there was like people attacking one at a time

**It's all ways pouring O** 03/01/2020

But I don't find it to be much of an issue

**Deleted User** 03/01/2020

And Harley was knocking out big ass adults?

Without much problem

Like I ain't gonna say it's bad, but just saying what I have heard

And I would rather hear someone who liked it and hear their opinion on it

**It's all ways pouring O** 03/01/2020

Well as someone who did like it

3:11

@ Deleted User 4f9ce... ◦

**It's all ways pouring O** 03/01/2020

Well as someone who did like it

Yes the fight scenes were unrealistic

However, I don't think that takes away from the movie

I just thought they were really creative

**Deleted User** 03/01/2020

Myself personally I think that realistic stuff should be a main concern if you want to sell a character better

And really I don't remember thin Harley being able to knock out someone with like one hit normally

Even with her hammer

Still the only other thing that I heard about, was that this was basically giving off the idea of the "Fuck Men," kind of vibe

**It's all ways pouring O** 03/01/2020

I mean, no?

I didn't get that idea at all

**Deleted User** 03/01/2020

Going as far as to butchering Black Skull to just make him a misogynistic asshole

And made him a loopy fuck too

When... He is pretty serious and hardcore

**It's all ways pouring O** 03/01/2020

Egh, misogynist I would have to disagree with is loopy sure but it's honestly kinda what made

him as scary as he was considering he was very

3:12

@ Deleted User 4f9ce... ◦

**Deleted User** 03/01/2020

Honestly it feels like something that would make them right at home

If there's a difference between the two maybe

But idk

If they kept more to the roots of the two characters like I heard the movie didn't do, then it would have been a much more interesting contrast for people I think

And maybe less complaints would have been made

That and apparently making the writing make sense too

Like... These were the main problems I heard about the story

Pacing is bad

Story is everywhere

The story gives Harley plot armour

Other characters are sometimes more interesting than Harley herself

Harley doesn't develop that much if at all on a personality level

That and apparently the main plot just could have been easily solved on Harley's end if she just got out of Gotham or something

Because Black Skull wanted a diamond and wanted to kill Harley and for some reason lets her go off and get the diamond instead without thinking she wouldn't be a person of her word or something

And just move out of Gotham

And apparently she breaks into a prison with police officers even having guns

3:12

@ Deleted User 4f9ce...

**It's all ways pouring O** 03/01/2020

Umm

Police offices have guns in that scene

**Deleted User** 03/01/2020

They didn't use them, did they? Lol

**It's all ways pouring O** 03/01/2020

And she couldn't have moved out of Gotham because you know

About say... 50 mercenaries and black skull wanted her head

I don't think they would stop just cause she left the city

**Deleted User** 03/01/2020

I think they're saying the immediate threat

Besides pretty sure there would be a way to get out and not have them follow your tracks

Harley was more than capable of this before

And had the Joker go crazy trying to find her even in Gotham City once when they had a similar breakup kind of situation in the comics

Honestly I don't know the film to know how fair the stuff is

But what I do know is, is that I have basically heard it all about this film

Good, bad, mediocre, feminist propaganda

Good or bad feminist propaganda (edited)

The works

Although my favourite of the bad review quotes,

And this is him going off after I jokingly said the joke character Irish the Hedgehog had my favorite design out of any sonic character

3:17

@ Deleted User 4f9ce... ○

**It's all ways pouring O** 05/03/2020

Skylar this has happened both before and after the comic thing happened

**Deleted User** 05/03/2020

At most I was moreso annoyed before that you weren't even willing to give Sonic a chance and then after

"oh I'd play it if it had Irish"

when Irish literally represents what SEGA has been doing for the past 10 years

I get that you may not understand everything on my perspective because you don't know Sonic and SEGA as well as I do

but, I'm going to have to say trust me on the fact that it's not me being upset with you liking something

it's me being upset with SEGA's only apparent grab now is to just be cheap laughs at best and when you're grabbed in potentially by that identity

when there's much more to the series than that

It'd be like if I only liked fallout because... oh, it had guns and I like guns

I play it for just the guns

it's something that shouldn't be as focused on, if not, shouldn't be why it grabs you in if you showed no interest before

**It's all ways pouring O** 05/03/2020

Actually I wouldn't have a problem with that.

Especially if you're talking about 4 since that had

Especially if you're talking about 4 since that had  
really good gunplay

**Deleted User** 05/03/2020

You get what I'm trying to say  
if it's not the main appeal, or like... the thing that  
should be grabbing people in and it's the only thing  
that the company seemed to care about now

**It's all ways pouring O** 05/03/2020

Skylar anytime I say something like, anything  
about Irish other than I like his design more than  
most other sonic characters which just comes  
down to my likes which I have no reign over, it's all  
hyperbolic jokes

**Deleted User** 05/03/2020

if you think that he has a nice design  
okay  
but at that point, you just like green sonic with a  
hat  
that's how I feel about it  
and there's nothing wrong with that (edited)  
if you like Irish for the meme  
go right ahead  
but don't play a game just because it has Irish in it  
please  
That's literally what the Sonic Fanbase has been  
doing with a lot of Sonic games as of late  
because... oh it has Shadow, or a character I like,

### **Part III: Staying Aware**

Also, PLEASE PLEASE PLEASE do not go after Sonic Meerkat. He recently broke all contact with Skylar and is the reason I was able to get these screenshots.

Skylar has done so much horrible shit to so many different people, and I wanted to put this out there so that people can see just how much of a genuinely bad person he is.
